Enjoyable Evening at Oddfellows Annual

Big Attendance of Members and Friends Last Friday Evening at Social and Dance

In keeping with previous years, the local Oddfellows lodge held a social evening last Friday in their hall, which was enjoyed to the full. During the evening songs were contributed by Miss Nielsen, Foss Houlton gave an amusing recitation and Mr. D'Andrea a violin solo.

A feature of the dance program was a spot dance, in which the prize was awarded to Mr. and Mrs. J. Rogers. Balloon dances and other novelty dances added to the variety and interest of the evening, and at the intermission refreshments were served, which gave the dancers renewed "pop" and energy for the remainder of the evening. And a very—very "good time was had by all!"

Organizing Fish and Game Association

Farmers and ranchers are co-operating with fish and game associations, already locally organized, for the purpose of forming an Alberta Fish and Game Association. Among the chief objectives of this provincial association will be the suppression of pests, such as crows, magpies and coyotes, the preparation of recommendations which will advance the fish and game interests in their relation to farmers, ranchers and sportsmen, and the bringing in of new game birds, such as Ring-necked pheasants, which will do well in this province.

In this connection, the Calgary Fish and Game Association has already arranged to bring in 1000 pheasant chicks this summer to be set out in the Calgary district. Other associations are taking similar steps and it is indicated that there may be support from the provincial government in this respect.

In order to form a strong Alberta Fish and Game Association, it is desirable that local associations be organized throughout the province and all sportsmen in this district are urged to take an active part in accomplishing this end. Those who are interested, are invited to write to C. A. Hayden, President of the Calgary Fish and Game Association, who is looking after the preliminary work in connection with the forming of the provincial association.

Week's Program at Palace

The weekend picture for the Palace theatre is entitled "Gentlemen Prefer Blondes." The usual weekly Fox News films and a comedy will be shown. Next week's program is as follows: Monday, "The Chinese Parrot;" Tuesday and Wednesday, "Secret Hand," with Pola Negri in the lead; Thursday, Tom Mix in "Canyon of Light."

Frank Children Meet

The "Willing Workers" branch of the Junior Red Cross at Frank, Alta., held an interesting meeting at the home of Mrs. A. Sherring. It was decided to hold a sale of fancy work and home cooking with a tea on Saturday, April 7th. A short programme of music, songs and recitations took place at the conclusion of business, after which the children repaired to the dining room for refreshments.

Vote for Acceptance

The Crow's Nest Pass Coal Co. employees at Michel and Fernie voted on the new agreement on Friday, March 2, the vote standing 734 for acceptance, 316 against, with 27 spoiled ballots.

Several minor points were left to the scales committee to adjust with the company officials and these parties have been in conference several times and it is thought that the agreement will be finally signed within a few days.

One of the main points yet to be settled is the length of time the agreement will run.

The vote was very decisive and everyone is glad that there will be no stoppage. On previous occasions when an agreement terminating Fernie could always look forward to a three months' strike.—Fernie Free Press.

Showed Pictures at Blairmore

Four interesting films were shown at the grill room of the Tea Kettle Inn at Blairmore on Monday evening by Mr. Robinson, travelling passenger agent of the C.P.R., Calgary, depicting the gathering of the raw material used in the manufacture of dynamite, and its manufacture into the finished product at the Dupont Works. One remarkable picture was shown of a charge of 58,000 lbs of dynamite blasting 190,000 tons of rock. One film showed the beautiful scenery of the Windermere Lake, and the final film was of particular interest to those who delight in trout fishing, showing a typical fishing camp in New Brunswick, where apparently they get just as much of a "kick" in trying to hook the elusive and fighting cut-throat as do the fishing parties which annually visit the streams and rivers of this district.

At the close of the evening Mr. Moses Johnson, district inspector of mines, tendered a vote of thanks to Mr. Robinson, which was heartily concurred in by those present.

Lance Morgan Buys Fernie Auto Concern

An important business deal has been announced in Blairmore, whereby Lance L. Morgan, of the Crow's Nest Pass Motors, becomes proprietor of the Fernie Motor Car company of Fernie, B.C. The transaction has already been completed, and possession has been taken of the Fernie business. Mr. Morgan is well known in Blairmore as the president of the local Board of Trade and as an excellent round sportsman. His many friends wish him all success with his new venture.—The Lethbridge Herald.

Many British Settlers Expected

A large number of British settlers will be coming to Alberta during the next three months, states E. M. Johnston, district superintendent of the Land Settlement Board at Edmonton, whose office is arranging for the handling of these newcomers. Some two hundred boys are expected from the training schools established by the British Ministry of Agriculture in various parts of England and Scotland, where 'teenage boys are given a six months' course of training on farms equipped with Canadian machinery and implements. In addition a considerable number of married couples as well as single men and women listed as farm laborers and domestics are included in the emigrants from Great Britain destined for this province.

Golf Course for the Pass Towns

Clubs Will Play on Blairmore Course Which Will be Improved and Enlarged

In order to maintain a good golf course, it has been suggested that the players of Coleman, Frank, Hillcrest and Fasberg units with Blairmore in organizing one club to be known as the Crow's Nest Pass Golf and Country Club.

Coleman heretofore has boasted a course, situated a short distance east of town, but the expense of maintaining it has been heavy on the players, owing to there being only a few players. A combination of the towns will make it possible to finance the maintenance of a fine course and clubhouse, and the location of the Blairmore course is quite convenient for Coleman players.

At a meeting held in the Greenhill hotel on Monday afternoon, a proposition submitted by G. A. Vissas, general manager of the West Canadian Collieries, Ltd. was considered favorably, whereby the company will improve and enlarge the present golf course, provide suitable fencing around the property, and supply the necessary machinery for putting the grounds in shape and keeping them in a good playing condition. The company will also engage a competent ground keeper.

Due for members will be as follows: Gentlemen \$20, ladies \$7.50, married couples \$25; juniors under 18 years of age \$7.50. Monthly dues for residents or visitors—Gentlemen \$5.00, ladies \$2.00, daily dues \$1.00. Monthly members will not be entitled to the regular club privileges.

Coleman is represented on the executive by H. C. McBurney as vice president.

Provincial Savings Certificates Popular

Alberta Provincial Saving Certificates have proved a popular form of investment since the first of the year. According to officials of the Treasury Department, the gross sales amounted to \$1,188,912 in January, and \$595,208 in February, and allowing for withdrawals the net business to the end of the first week in March totals \$608,972.

Card of Thanks

Mrs. F. G. Scott wishes to thank many friends, especially the Masons, for their kindness during her recent sad bereavement.

Many British Settlers Expected

A large number of British settlers will be coming to Alberta during the next three months, states E. M. Johnston, district superintendent of the Land Settlement Board at Edmonton, whose office is arranging for the handling of these newcomers. Some two hundred boys are expected from the training schools established by the British Ministry of Agriculture in various parts of England and Scotland, where 'teenage boys are given a six months' course of training on farms equipped with Canadian machinery and implements. In addition a considerable number of married couples as well as single men and women listed as farm laborers and domestics are included in the emigrants from Great Britain destined for this province.

Grand Dance for Wednesday Next

Committee for Swimming Pool Announce Another of Their Series of Popular Dances

Another popular dance in aid of Coleman's swimming pool will be held in the K. of P. hall on Wednesday next, March 21. After-mat's orchestra has been specially engaged and the very latest in dance novelty music will feature the program. The admission for gents is \$1.00 and ladies 50c. In order to raise funds for this worthy enterprise, the swimming pool committee has followed the practice established last year in putting on a series of dances, and there is no doubt they will be accorded a generous measure of support in their endeavor to reduce the \$600 debt against the swimming pool.

The committee includes Mayor Burns, Mrs. Dornst, Mrs. Price, John Houghton and Maurice W. Cooke. St. Albans Church

Wednesday, March 21st, Evening and address, 7:30 p.m.

Friday, March 16th, J. W. A. meets in Parish Hall at 3:30 p.m.

Saturday, March 17th, sale of work and tea, etc., from 3 to 6 p.m.

Sunday, March 18th, Holy Communion at 9:00 a.m., Evensong at 7:00 p.m.

At the organization meeting of the Junior Woman's Auxiliary about 25 girls signed up as members. The girls felt that it should be somebody older than themselves to take office for the present year, until they caught on to the work. The following therefore were elected officers for the ensuing year:

Superintendent—Mrs. Currie.
Secretary—Miss Mae Moore.
Treasurer—Miss Isabel Atkinson.
Dorcas Secretary—Miss Gladys Moore.

The girls seemed to be full of enthusiasm for the work set out before them. Among the objects that they will work for are new prayer books for the church, vestments for the choir, new hymn book, etc.

Twenty-five girls signed up as members and there are prospects of a few more. Meetings are held every Friday afternoon at 3:30 p.m. in the parish hall.

The Women's Auxiliary will meet at Mrs. Halliwell's residence, Sixth street, at 7:30 p.m. this evening (Thursday).

Chas. Nicholas was a visitor to Calgary this week making further purchases for his store for the spring trade.

Improvements in Service

The Grand Union hotel justly prides itself on the service provided for both the local and the tourist trade, and ever on the alert to maintain its enviable reputation, there has recently been installed a Frigidaire cooling plant, which manufactures its own ice and maintains an even low temperature in the height of summer so that refreshments for the bar and perishable foods for the hotel are kept in first class condition.

The connections from the electrically operated plant in the basement to the bar and the kitchen convey the below freezing air to the ice boxes, and it automatically operates, so that when the temperature is sufficiently low the generator cuts out, while if the temperature rises it will start itself, so that it is continuously operating day and night without requiring attention.

Old-Timer Returns

Dick Slugg has returned to town from Corbin, B.C., where he has been living for some time, and accompanied by his wife and two children, has taken up residence here. Dick is well known to the old timers of the Crow's Nest Pass, for he packed freight over these mountains before there were roads, when a pack trail was the only means by which goods could be brought in. This was before the advent of the railroad, and in the days we read of when "men were men" as the story books say. Though Dick has a surname with a rather formidable sound to it, he is a very pleasant and affable man, wears his hat at a jaunty angle, and has the appearance of one who takes life in a philosophical way, come what may. But those who knew Dick best also knew of his prowess as an exponent of the manly art, and in the early days he was the uncrowned boxing champion of these parts. Up west as far as Nelson his fame as a boxer was the subject of talk among the sports of the day. So that one unconsciously in thinking of Dick Slugg also thinks of "slugg-em". He is still very active and has not altogether lost his youthful appearance. This week on his arrival he was heartily greeted by old friends and acquaintances. He is a blacksmith by trade, and years ago operated a shop in Coleman.

Another of Dick's experiences is having been a resident of Frank at the time of the famous rock slide which wiped out the then metropolis of the Crow's Nest Pass. He resided in a hotel which fortunately was not carried away by the avalanche of rock, but was shifted several inches off its foundation. It was a hair raising experience for many, but it did not faze on Dick, for with the calm of an untroubled mind, he slept through it all, to awake later to wonder if he had been transported to another world. Of course there are many other experiences that he could relate, but you'll have to meet Dick to get them at first hand.

Freight Trains Collide Head on at Pincher Station Yesterday

Owing to a switch being left open a freight train ran into a standing train west of Pincher station on Wednesday, delaying the west-bound passenger local for one hour. The engineer of one of the freight engines sustained a badly sprained ankle, and the fronts of both engines were badly smashed.

Canada's Bass

Fetch \$83 Each

Tribute From Forestry Association to Boy Scouts re Forest Fires

Ottawa, March 8th—According to a statement issued by the Canadian Forestry Association, the amount of money spent by American fisherman visiting Canada last year works out to be \$83 for every black bass caught by them. The highest known price for a Canadian game fish was \$1,700, representing the amount spent by an American and his family in several weeks' sojourn, during which "Dad" fished just one day and caught one three pound trout.

The Canadian Forestry Association points out that while the "Tenderfoot" fisherman, whether Canadian or foreign, is often a fire menace to the forest which guards his fish and game supply, the amount of educational work on both sides of the border is rapidly limiting careless conduct in the woods. The training of boy scouts, girl guides and other juvenile organizations is having a splendid effect on forest fire prevention. For many years the Association has been looking for a case of forest fires attributable to boy scout campers and thus far none has been reported.

Good-Bye, Winter!

The curling and skating rink is closed after three months operation. The time has passed very quickly, in fact too quickly to permit of the competitions being completed in the curling schedules, with the result that there are still competition cups tied up awaiting decisions as to who are the winners for the season just closed. The more enthusiastic curlers have cast their thoughts on cold nights this week to the rink, wishing that they could enjoy the game, but there is no help for it—they must wait their chance again till about eight months have elapsed.

The pleasure and comradeship engendered in the playing of this grand old game is a very important feature in the life of any town or city, and though the benefits of a rink are often not appreciated at their full value by the public, it would cause a marked void in winter activities and sports were Coleman to be deprived of its winter enjoyment which the rink provides at very little cost to the individual. No wonder that as the winter season approaches each year, its advent is hailed with enthusiasm by devotees of winter sports which act as a tonic and help to dispel the occasional gloom of dull days.

Salvation Army Notes

Capt. and Mrs. Hind returned yesterday afternoon from the Young People's Conference in Calgary, which was presided over by Commissioner and Mrs. Rich. The special meeting for women was ably conducted by Mrs. Rich. The Salvation Army is planning on erecting a large building for its work in Calgary.

To-night (Thursday) at 7:30, there will be a lantern service at the citadel, based on pictures from the old testament. Next Tuesday night the subject of the lecture will be the lives of Christ and St. Paul. Special song selections will be given and everybody is invited to attend.

Canada's Future

Canadians should take a big view of their country and its future. There should be nothing narrow or small in their conception of the Dominion present or future, but rather our vision should be broad, large and courageous. The individual man who persists in looking out on life through blue spectacles, who can never see any possibility of success ahead because of obstacles, is the man who is forever contrasting his inferior position with that of a more successful man, and will be a failure. And what is true of the individual is equally true of a nation.

The habit induced by some Canadians, both in public and private life, of comparing Canada with its sixty years of history as a confederated unit with the United States with its 150 years of union, and Canada with its ten millions of people with the more than one hundred and ten millions in the United States, is just as absurd as it would be for a merchant established one year in business and with five employees to complain that his business turn-over was not equal to that of another merchant with a business of many years' standing and a staff of employees ten times as large. Yet many people persist in comparing Canada of today with the United States of today, instead of comparing Canada with the United States when that country was of the same age or had approximately the same population.

Comparing Canada with the present United States gives the latter the advantage, but the advantage is all with Canada when it is compared with the United States at the time of an equal population. Even making full and ample allowances for changed conditions resulting from science and inventions, discoveries and advancements of all kinds, the contrast is decidedly and greatly in Canada's favor.

For example, it was not until the United States had a population of seventy-five millions of people that its trade reached the figure which Canada now enjoys with ten millions of population. When the United States had a population only equal to that of Canada today, it did not cut much of a world figure; it was not a leader in the pioneer task of its own domestic development, and it would have been just as reasonable to decry the United States and its future because it did not measure up to the older countries of Europe, as it is now to decry Canada and its future because it has not attained a par with the states of the United States.

Young as we are, in power, Canada is today a real factor in world affairs. It has established the United States and other countries in the manufacture of paper, it has become the world's greatest exporter of wheat, it is the chief source of the world's supply of milled flour, and year by year it is overtaking the United States in the production of gold and is not now far behind. For some years past employment has been as general in the United States, and in the last two years has been even better. Canada today finances itself to an extent the United States was not able to until it was times its size.

Nowhere else in the world are there two nations living side by side, speaking the same language, with the same monetary system, and having similar customs and ideals. Yet there are people who persist in the belief that there is a constant exchange of population across our international boundary line, and that a larger and more powerful magnet of the United States should attract the people of Canada to the south. This is a natural and natural if it were not so. Yet we make bold to predict that the day is not far distant when Canada will prove the more powerful magnet of the two, and population will flow from the United States into Canada in a greater and more steady stream than has ever flowed southward.

Paradoxically, many of the very people who deplore any exodus of Canadians to the United States, at the same time object to United States people and capital coming to Canada because of a fear that Canada will thus become Americanized. Others object to Canadian capital being invested in the United States or other countries, claiming it should be kept at home for investment and development purposes.

In all this is to be seen an attitude of doubt, of fear, of a little Canadianism, expressive of an inability to stand on one's own feet. It is an attitude which, were it at all general, would inevitably drive the self-reliant, forward-looking young people of Canada out of the country. Such people would do well to remember that this attitude is not unique to Canada, but is on the map of the progressive nations of the world to-day. This attitude became indicated with the considered opinion of the Prince of Wales who recently declared: "Canada is on the threshold of one of the most astonishing eras of expansion and development ever seen. Exactly how long that will take none of us know, but certainly it will occur in the lifetime of many of us."

Seeking New Trade

Most of the imported things that Canadians buy come from the United States. But our neighbors are not satisfied and the U.S. Department of Commerce is opening an agency in Winnipeg for the promotion of the sale of American goods in western Canada, believing that unto him that hath, the trade shall be given.

The average consumption of fruit in England is 93 apples, 67 oranges, 62 bananas and 15 lemons per person per year.

Big Cold Storage Plant

A cold storage plant to cost \$2,000,000 is to be erected at New Westminster, British Columbia, to care for fruit, dairy, meat and fishery products of British Columbia and the prairie provinces intended for export.

Native Animals Increase In Parks
The operation of the national parks of Canada as game sanctuaries has demonstrated that the sanctuary idea is the most successful method of bringing back native animals once thought in danger of extinction.

Indigestion

What most people call indigestion is usually excess acid in the stomach. The food has soured. The best remedy is an alkali, which neutralizes acids. But don't use drugs helps. Use what your doctor would advise.

The best help is Phillips' Milk of Magnesia. For years it has been the standard. It has remained standard with physicians. You will find nothing else so quick in its effect, so harmless as efficient.

One tasteless spoonful in water neutralizes many times the volume in acid. The results are immediate, with no bad after-effects. Once you learn this fact, you will never deal with indigestion in the crude ways. Go home—now—use this method is sure.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

Excursion To Sweden

Many Are Planning To Visit Native Lands On the Baltic Sea
Rev. Oscar Gunnarfelt, of Winnipeg, is organizing a special midsummer excursion to Sweden, Norway, Denmark and Finland, which is to leave Winnipeg on July 15th, and by Canadian National Railways, and to sail from New York May 21, on the S.S. Drottningholm. Already quite a number of applications have been received for reservations, and it is expected that a large party from Western Canada and Minnesota and North Dakota will take advantage of this opportunity of revisiting their native lands on the Baltic sea.

This Discovery Will Benefit Millions

Mr. W. J. Darrow, New York, writes: "Sick headache and toothache have plagued me for many years. I tried everything but truthfully your daily regulator is the best. I am taking CARTER'S LITTLE LIVER PILLS All druggists—25¢ and 75¢ red pills.

—
Carter's Little Liver Pills
All druggists—25¢ and 75¢ red pills.

Silk Stockings

Have stockings in the very best shades; your old or faded stockings given any tint in the rainbow in five minutes; with fifteen cents' worth of ordinary dyes! but use dyes, not synthetic dyes. And be sure they're true.

Try a pair tonite! Use Diamond Dyes and you will dream they were united at home. And can you afford to pay so much? If you will just use the true dyes.

Free: Why not ask your druggist for a special Diamond Dye Catalog? Valuable suggestions, a divergent color, and many other colors. Or write for free copy of Color Craft, a big illustrated book. DENTON, Dept. N13, Windsor, Ontario.

Diamond Dyes Just Dip to Tint, or Boil to Dye

Growth Of Wheat Pool

Now Has a Membership of 140,000 Farmers

The most recently compiled returns show that the Canadian Wheat Pool has a membership of 140,000 farmers with a wheat acreage under contract of 16,500,000 in the provinces of Manitoba, Saskatchewan and Alberta. The Pool has 16,764,000 grain elevators with a total capacity of 2,000,000 bushels and ten terminal elevators with a total capacity of 2,000,000 bushels. During the last crop year the Pool shipped 124,000,000 bushels of grain to 24 countries through 60 ports of the world, 500,000 of which went to the British Isles.

Canada Has Bought Twenty Light Planes

Will Be Loaned To Clubs Which Comply With Conditions

Canada has augmented the fleet of light aircraft for loan to civil flying clubs throughout the country by the purchase of twenty more planes, the products of a British aircraft manufacturer. The planes have already been delivered.

On order to the Government, the planes will be distributed to clubs which comply with the conditions laid down by the Department of National Defence.

The Minister of National Defence announced he had signed a formal agreement with the directors of the Saskatoon Aero Club for the issue of two light planes to the club and the granting of the other forms of assistance, laid down in the standard conditions under which the formation of such clubs will be approved.

Corns are painful growths. Hoddy-Way's Corn Remover will remove them.

Canadian Nationality

To the unanimous national protest against the objectionable practice of census statisticians in refusing to recognize such a thing as a "Canadian" nationality, the government must pay heed. It is absurd to style a child whose grandfather was an Englishman married to a Scots woman; whose father was born in Canada and married a Swedish woman, an English. The lad is a Canadian, second only in status to the North American Indian—Western Producer.

Alice—"What did he do after he called you a crazy halfwit and a sour-faced monkey?"

Doris—"Well, then he became insuring."

It is much easier to be critical than to be correct.

Keep Minard's in the Medicine Chest.

Northern Saskatchewan Development

Provincial Government Is Planning To Aid Mineral Prospectors

The new department of industries of the Saskatchewan Government is planning to aid mineral prospectors in the northern sections of the province. In conjunction with the Dominion Government, aerial surveys will be continued, and it is hoped that the western and eastern mineral area will have been surveyed and reduced to geographical maps by the end of next year. The department will be instrumental in the position whereby it can be of every assistance to the prospector and investor. At the present time there is very little accurate information on Saskatchewan northern mineral areas. Recognizing that great development can be looked for both in these areas and the western mining areas Northern Manitoba, the provincial department is speeding up the work in the territory as well as the plan to stimulate mineral activities in the coming season.

The minister states it is the intention of his department to place its facilities at the disposal of the prospector and the investor. "The minor will be given every possible assistance," said Mr. Spence, "at no cost to himself to develop his proposition. We will assist him through our experts at the university and do everything possible to place him in the position of developing any proposition which appears to him to be of success. We will have evidence of success worked out." In the capital the department will be prepared to offer to assist in developing water power and coal fields and to co-operate in every way."

Asthma No Longer Dreaded. The days of relief from asthma, from asthma, hold up to those who have learned to rely upon Dr. J. D. Kell's Kell's Asthma Remedy. So safe do they feel that complete reliance is placed upon it. It is specific with the certainty that it will always do all that its makers claim. If you have not yet learned how safe you are with this preparation at hand get it today and know for yourself.

Rushing Work On Flin Flon Railway

Road Will Be Completed To Mine By Spring

With 1,250 men on the job, work on the building of the Flin Flon railway into Manitoba's rich new mineral area is being pressed day and night. Seven bridges have been driven, 100 and gravel pits are being opened at Miles 10 and 15. Grading has been completed to Miles 42. Miles have been built, clearing is completed and grading is going on West of Mile 60. The dragline is at Mile 50. Ninety teams and four Linn tractors are hauling supplies.

Twenty-seven hundred tons of supplies have been delivered to camps West of Mile 50. The telephone line is completed Mile 37.

Because much of the country is muskeg, the contractors are making the winter work for them and are laying the tracks on the ground. Before the break-up, they will have reached the mine and all supplies will have been deposited ready for the basing of the track when spring arrives.

Curious New Lifeboat

Invention Of Shipy's Carpenter Said To Be Unusable

A ship's carpenter, after 60 years of service, has invented a new lifeboat which is useless.

A ship's carpenter, after 60 years of service, has invented a new lifeboat which is useless.

It is practically two boats, shallow boats fixed bottom to bottom, so that as one half is capsized the other half is righted. It is said, however, to be practically impossible to capsize it, still more to sink it. In the double bottom are valves which will let the water out but will not let it in whenever way up the boat is; and there are tanks for fresh water and food which can be reached whichever side of the boat may be uppermost.

World's Oldest Christian Church

The oldest Christian church in the world, built during the third century, stands within the shadow of Mount Ararat, at Etchmiadzin, in Soviet Armenia. Gregory the Illuminator, whom the Armenians believe converted them to Christianity, is supposed to have been its founder, and it is for that reason known as St. Gregory's Cathedral.

St. Silas Sand In Manitoba

Deposits of silica sand, possibly suitable for glass manufacture, are found on the shores of Black Island, Lake Winnipeg, as well as at Beausejour, Manitoba.

In a moment of weakness the Hamilton Herald advocates "Amm I?" as a substitute for "Am I not?" That paper ought to have its head x-Ammt.

Minard's Liniment kills warts.

Assisted Passages for British Subjects

If you give us their names, we will give the low ocean rate of £1, reduced railroad fares, and FREE transportation for children in time of war, providing they are placed in farms or in apprenticeship.

Birds Make Wonderful Flight

Lapwings Complete Non-Stop Flight Across Atlantic In December

An amazing non-stop performance by hundreds of lapwings that flew the 2,000 odd miles from England to Newfoundland in December has just become known. The flight is easily the most wonderful of any recorded in bird life. The lapwing is known in the north of England and Scotland as the "peewit," and its eggs are sold in London as "plover" eggs.

It is not the first time that a lapwing has crossed the Atlantic, but never before have hundreds crossed together. Stragglers get across by themselves, but a flock would have to make a non-stop flight. To realize the importance of their performance it must be understood that only hunger would drive them from this country. Therefore they must have begun their flight in a semi-starved condition. For part of the way they would be assisted by having the gale behind them, but it was impossible for them to have such a gale all the way. In the last stages of their marathon flight they must have fought against heavy odds.

Internal parasites in shape of worms in the stomach and bowels can sap their vitality and retard physical development. They keep the chick in a constant state of unrest and pain, intended to shorten life. The chick can be spared much suffering and the mother must anxiety by a relapse with worm remedy, such as Mite Worm Powder, which are sure death to worms.

Wins Many Prizes

Widely Known Horseman From Brampton Will Ride In Saskatchewan

W. J. McCullum, the widely known horseman of Brampton, Ontario, and Regina, Saskatchewan, has accepted arrangements whereby he will permanently reside in Regina and have his stables there as a distributing point. Mr. McCullum entered over 100 horses at the Royal Show, Toronto, last fall, fitting three stallions of his own imports. No exhibitor won so many championships and prizes as he won at that show.

The Oil Of The People—Many oils have come and gone, but Dr. Thomas' Electric Oil continues to maintain its position and increase its sphere of use. Its sterling qualities have won it a place in the front and kept it there, and it can be used by all the people. Thousands have been benefited by it and would use other preparation.

Tar Sand Deposits

The Markland Oil Company have been investigating the possibilities of the sand deposits on the Athabasca River in Northern Alberta, and contemplate establishing a plant for the extraction of oil based on a process that has been developed at Denver, Colorado.

Troubled With Painful Eruptions Cuticura Healed

"I was troubled with itchy, sore eruptions on my head for over a year. They were very embarrassing to me. I would scratch all day and it did scratch them a watery fluid came from them. They were very painful, and I could not sleep at night."

"I tried many remedies during that time but without success. I then read an advertisement for Cuticura Soap and Ointment and purchased Soap. The irritation stopped after one week's treatment and after using the Soap and three boxes of Cuticura Ointment I was completely healed."

Signed: Miss E. Rendall, 309 Argyle Street, St. John's, Newfoundland, Sept. 7, 1927.

Cuticura Soap, Ointment and Talcum are all that you need to use to cleanse, Ointment to soothe, Talcum to powder.

GIVES NO CREDIT TO GOVERNMENT FOR C.N. SUCCESS

Ottawa. — Hon. Hugh Guthrie, house leader of the Conservative opposition last session, charged the finance minister and the minister of railways with endeavoring to appropriate to themselves credit due to Sir Henry Thornton. They were endeavoring to break in the independence of the president of the Canadian National, Mr. Guthrie declared. He thought Sir Henry and the board of management of the Canadian National should be congratulated upon the "splendid showing" they had made during the past year. Net earnings of the Canadian National had increased by \$125,000,000, in four years — \$125,000,000 which formerly had to be withdrawn from the treasury of the Department of Transport.

Mr. Guthrie pursued, "was not entitled to a particle of credit. Sir Henry Thornton and the board were entitled to the full credit for the result obtained."

Also speaking on the budget, W. T. Lucas (U.F.A., Camrose), described results of the 1926 census in western Canada as startling. The prairie provinces had lost the whole of their natural increase in population as well as 38 per cent of the new immigration since 1921. This despite ten million dollars spent annually on immigration, federal and provincial authorities and the railways.

F. S. Cahill (Liberal, Pontiac), described the speech of Mr. Guthrie as one of the finest eulogies of the Liberal party that had been delivered. He declared that the system of book-keeping whereby Canadian National obligations to the public upon which interest is being paid are not added to the net debt was instituted by the Conservatives. He believed that it was a proper system, and consequently it had been adopted by the Liberal Government.

Mr. Cahill believed that if a referendum was taken in Canada on the best fiscal policy, that 70 per cent of the people would favor reduced tariffs or free trade. Legislation he declared must not be designed so as to favor any special class.

Weekly Newspaper Men Meet

Hon. Chas. Dunning Speaks At Banquet In Connection With Directors' Meeting At Ottawa

Ottawa. — The annual meeting of the directors of the Canadian Weekly Newspapers Association was held in the Canadian Leader, with a full representation of the provinces. Importance of urgent import was given particular consideration. A banquet was tendered by S. N. Wynn, Yorkton, Sask., president, at which Hon. C. A. Tuning and Goo. McPhee were invited guests. The address given by the minister of railways was greeted with enthusiasm, and the member for Yorkton spoke also of the great power of the press in the moulding of public opinion. Those present from Saskatchewan included D. C. Dunbar, of The Estevan Mercury, and S. J. Dorman, of The Alameda Dispatch, the latter during his address, business sessions stressed the necessity of greater co-operation and tendered a hearty invitation to the association to meet in Regina, the convention city, in June.

Woman Liberal Elected In Britain

Mrs. Walter Runciman Successful Candidate In St. Ives

Penzance, Eng.—The first woman Liberal in the present British Parliament and the first husband and wife combination to sit in the House of Commons have resulted from the recent by-election in St. Ives.

Mrs. Walter Runciman, wife of the Liberal member for Swans West, not only became the first woman Liberal in the present House, but succeeded in capturing the St. Ives constituency for the Conservatives.

The district formerly was a Liberal stronghold, but returned a Conservative at the last general election in 1924.

Mr. Runciman, who is a prominent figure in the Liberal party, actively supported his wife's candidacy.

Pioneer Missionary Dead

Winnipeg.—Rev. Dr. John McLean, historian and pioneer missionary of Western Canada, died here following an attack of influenza. Dr. McLean, who was in his 77th year, since coming to Canada more than 50 years ago had been prominently connected with the activities of the Methodist Church in the Dominion.

Saskatchewan House Prorogues

Thirty Bills Were Put Through In Final Session

Regina.—With traditional dignity and solemnity Hon. Honor Lieutenant-Governor Newlands prorogued the third session of the sixth Saskatchewan Legislative Assembly. Since January 24, thirty three sittings were held during the session, including 11 night sittings, four morning sittings and a Saturday sitting.

The closing ceremony came after a long busy day, during which more than 30 bills were put through the closing stages and passed. One of the last items of business transacted by the House was the passing of supplementary estimates totalling \$1,118,618 to cover expenditures already incurred. These were put through with little interruption, except a question was asked as to the amount of money spent. An item of \$11,000 was required for the Power Commission's work. The main items included \$55,208 for the Treasury including a grant of \$10,000 to the Canadian National Institute for the Blind, and \$25,198 for Freight Rates Inquiry; \$500,000 for the Farm Loan Board; \$193,000 for the Educational Department; \$52,220 for the public health department.

Votes totalling \$24,300 were included in addition to estimates of the Legislature up to \$2,000 a year for the Maritime Provinces, and Howard McConnell, the member for Saskatchewan, declared Premier Gardiner, while the hardest worked man in the province, was poorly paid when there was no room for the province to be too big.

Infant Princess Dies

Monthy' Old Daughter Of Emperor Of Japan Succumbs

Tokio, Japan.—The monthy old daughter of Emperor Hirohito, Japan, is dead. "Complications following pneumonia" was assigned as the cause of the death of the Imperial baby, who had been critically ill for several days.

The child was originally attacked by influenza, from which the emperor himself also suffered, together with thousands of Japanese people. It was announced that the emperor was convalescent.

At the bedside of little Princess Akiko were the Empress and other members of the royal family. There will be no official mourning as the child was under seven years of age and no public mourning. Interment will be under Shinto rites at Asaka, near Tokio, where the late Emperor Taisho is buried.

New Discovery At Flin Flon

Another Ore Body Located Said To Be Important

Toronto.—Reports from Flin Flon Mines are that a new ore body has been located south of the main ore body. It is stated that the new find is of one of considerable importance.

Development work is being pushed forward energetically. On the 400 foot level a crosscut 240 feet in width has been driven for a length of approximately 300 feet. The average value of the new body is 2 per cent copper and some zinc, but some samples are of much higher grade, one of 23 feet running between 6 and 6 per cent copper.

The work of preparing a new townsite is well under way, and sites have been selected for the concentrator and smelter. The present camp buildings will be removed to make room for the new plant.

Stirrill Feeble Minded

Edmonton.—Following one of the stormiest sessions that any measure before the Alberta House had been accorded, the Alberta House, the Senate sterilization Bill was given third reading and will be put into effect as soon as it has been assented to by the lieutenant-governor. By this action of the legislature, Alberta becomes the first province in the Dominion of Canada to undertake sterilization of the feeble-minded.

Gift For Medical Research

Stockholm.—At the request of the monarch himself, Sweden's birthday gift to King Gustav V. will be devoted to medical research. A special fund for the Canadian Pacific Steamship Maitland for the sum of \$1,000,000 has been accepted by the Canadian Pacific Steamship Maitland. During their nine months' tour of Great Britain and France, where they played 33 games with record crowds in attendance, sometimes exceeding fifty thousand, they

Boy Inherits Millions

Young Son Of New York Millionaire Receives Legacy

Regina.—A five-year-old boy today had joined the ranks of American millionaires. John Mortimer Coward, 3rd, of Glenridge, N.J., is to receive at least two-thirds of the more than \$4,000,000 estate of his father, J. Mortimer Coward, late head of the Coward Shoe Stores, who died in Hawarden, England, on Dec. 21. The total of his fortune which the five-year-old boy inherits is \$1,000,000 from an insurance company policy his father took out last July. Mr. Coward was 28 years old.

SITUATION IN THE NEAR EAST LOOKS OMINOUS

London.—The stern note which Great Britain presented to Egypt, stating in effect that the British will not grant full independence to that country at present has been coupled with the "holy war" in Arabia to create a situation which may affect British relations throughout the Near East to the borders of India.

Despatches from Egypt assert that the present situation is that of great confusion, uncertainty and excitement. Egypt is without a cabinet, but the Nationalist leader, Nahas Pasha, after an hour's audience with King Fuad, declared that constitutional governments would be formed as long as the constitution exists.

The British note, which apparently dropped like a bombshell in Cairo political circles after the breakdown of negotiations for an Anglo-Egyptian Alliance, makes it clear to the N.I. country that Great Britain will not grant independence to Egypt.

Well informed British observers believe that the home government has told the Egyptian legation that it is likely to hinder British power in protecting foreign life and property in Egypt. The note reveals that the British Government has for some time feared that such legislation would be adopted by the Egyptian parliament. But so long as there was prospect of a treaty of alliance, Britain refrained from expressing these fears.

Discussing New Agreement

Today a meeting is being held in Calgary in which officials of the Mine Workers Union of Canada and coal operators will discuss the terms of the new working agreement which will take the place of the present agreement which expires in some mines at the end of March and in Coleman at the end of April.

At Fernie it is stated that the Crow's Nest Pass Coal Co. employees have accepted a new agreement by a vote of about two to one, there being over 1,000 votes cast there.

A meeting is being held today in Coleman of the local members of the union, but no information has been secured as to the proposed terms of the new agreement, though there is a general feeling prevailing that satisfactory arrangements will be made between the operators and the workers.

Of course there is always uncertainty prevailing as the time draws near for the expiration of a wage agreement, which causes some instability in business circles, and among the workers, but with the experiences of the past whereby serious loss has been suffered through strikes and their resultant loss of work everybody concerned hopes for an amicable arrangement being effected so that there will be no cessation of work.

The prospects for the coal industry in Alberta are bright this year than for many years past, as there is every indication that there will be a much heavier movement of coal east if the proposed \$6.75 per ton rate is put into effect. Though this will directly benefit the mines supplying domestic coal, the steam coal mines of the Crow's Nest Pass will also receive some benefit owing to a greater demand being created for the bituminous coal. One estimate places the amount that would be moved this year from Alberta eastward at a million tons, if the \$6.75 rate goes into effect. This is in addition to the regular shipments, so that the benefits accruing to Alberta generally will make for greater prosperity in other circles besides the coal industry.

The Demands for Highways

The Government at Edmonton undoubtedly has an interesting time in trying to satisfy the demands from all parts of the province for improved highways, especially in view of the fact that there does not appear to be enough money to maintain the present highways in good repair. Great additions to income have been secured from the liquor traffic, and automobile licences, but apparently the sink hole for considerable of the revenue has been the northern railroads in possession of the government.

In the face of recent disclosures, if the government has a deficit under present conditions, with revenue greatly increased over that of a few years ago, and taxation already higher than in other provinces, it would appear to be good business to sell the railways and use the money for other pressing necessities. The C.N.R. under government operation was always a cause of anxiety, but with the appointment of a president free from political control, it has made a better showing. It is likely that our provincial governments will drag on for years whereas under the operation of either of the big railway corporations they can be made valuable revenue producing feeders to their systems.

Trucks will be manufactured in Canada by General Motors of Canada on a larger scale than ever before, as the result of the completion of a new manufacturing building at Oshawa. This building is but one unit in a \$2,500,000 expansion program now under way in Canada's motor city, where General Motors of Canada are erecting a huge stamping mill, a fireproof office building, new paint and varnish departments, and other manufacturing additions to the machine shop, body building, radiator and assembly plants. The program, when finished, will nearly double the Company's output and is expected to add 10,000 to the population of Oshawa. Completion of the first unit was signalled when President R. S. McLaughlin drove the first General Motors Truck off the new assembly line, as pictured at the top right. The other views show the exterior and interior of the new truck building.

Here and There

(14) Quebec City was an idea the better part of a week's time to his native city of His Eminence Raymond Marie Rouleau, newly created Cardinal. Excommunicate, the spiritual, civil and military and lay leaders of the community joined in welcoming this prince of the church.

Four hundred thousand motorists from the United States will be touring the highroads of the province of Quebec this summer, according to the vice-president of the Royal Automobile Club of Canada, interviewed at the Chateau Frontenac, Quebec, this week. The tourists, it is estimated, will spend over six million dollars in the province this coming season.

Edmonton—Sale of the Lacombe and Northwestern Railway to the Canadian Pacific Railway is proposed. The C.P.R. agreed to indemnify the province against future liability on outstanding 5 per cent. bonds for \$278,700, and the province will be liable in case at the same time undertaking to construct a 20-mile extension within the next three years.

Calgary—The Province of Alberta exported goods to the value of \$9,120,305 to the United States during the year 1927, according to the annual report of S. C. Reid, United States Consul for Calgary district. The total exports show an increase of \$1,644,170 over 1926. The Cottier and Sons held a conspicuous place in these exports, the former amounting to \$1,215,684 and the latter to \$82,682.

Winnipeg—Homestead entries made in the west in previous years totalled 1,397,000 in 1927, being 8,447, as compared with 6,012 the year before—an increase in 1927 of 45%. Entries by provinces—1926 Manitoba 1,250,000, Saskatchewan 2,819 (2,789), Alberta 2,756 (2,166) and British Columbia 113 (124). Demands for homesteads in 1927, an increase of 69 from Manitoba, 65 (54), Saskatchewan 221 (219), Alberta 215 (239) and British Columbia 6 (7).

Thirteen new ocean liners, at least, of a total of 138,000 gross tons, are expected in Montreal during the coming season. Of this, the Canadian Pacific vessels make up more than 90, or 90,000 gross tons. These are the "Empress of Britain" of 1927, the "Duchess of Bedford" of 30,000 gross tons each, and the five Canadian Pacific freighters, the "Beaverburn", "Beaverlawn", "Beaverford", "Beaverbrae", "Beaverhill" and "Beaverton", each of 10,000 gross tons.

Saint John—The Harbor Commissioners have now drawn up a \$10,000,000 project of port development, to extend over a 5-year period, subject to the approval of the Minister of Marine. The general scheme includes the construction of one grain receiving gallery at pier No. 7; a grain elevator at 1,250 feet long, 100 feet wide, 1,250 feet high, equipped with four one-storey, fireproof sheds and shipping office; one grain elevator of 1,250 feet long, 100 feet wide, with grain conveyor galleries for locating grain at pier No. 7 and the necessary railway tracks, railways, sewage facilities and water supply to serve the new works.

The increased buying power of the Canadian people and the surplus funds in their possession for investment in the last few years is accounted for by the rapid increase in the production of the Dominion, substantial increments having been recorded since 1923 and a record made, it is estimated, in 1927. The value of gross production in Canada in 1923 was \$4,945,000,000; in 1924 \$5,205,000,000; in 1925 \$5,599,000,000; in 1926 \$5,624,000,000; and in 1927, according to the estimate of the "Financial Post", \$5,720,000,000. The value of 1927 exceeded that of 1926 by approximately \$100,000,000 and that of 1923 by \$409,000,000. Agriculture accounted for 47% of the total, mining \$485,405,000; fishing \$59,291,000; trapping \$16,788,000; mining \$262,755,000; electric power \$108,195,000; construction \$2,396,000,000, and manufactures \$2,790,700,000.

WORLD HAPPENINGS BRIEFLY TOLD

Canadian farm lands in occupation in 1927 are valued at an average of \$38 per acre in a Government crop report just issued.

The Winnipeg Presbytery of the United Church has adopted a resolution in favor of the ordination of women to the ministry.

Jules Cesare Joseph Laperre, a Belgian, accused of being a German spy during the Great War, was found guilty at Paris, and sentenced to life imprisonment in a fortress.

The Washington government appears unfavorable to any proposal for another conference of the great powers on naval disarmament before 1931.

Premier Taschereau brought a bill down in the Quebec legislative assembly which would grant municipalities the right to prohibit sign-boards advertising alcoholic liquors.

That the Canadian National Railways would, in the near future, purchase the Western Union Telegraph lines in the Maritime provinces, and add them to their own system, was the report current in Montreal.

Hon. T. M. Witford, former Minister of Justice and leader of the New Zealand Liberal Party, arrived in Vancouver aboard the liner Aorangi, to make a study of Canadian conditions generally.

A. L. Jolliffe, chief commissioner of immigration, has left Ottawa for Great Britain to investigate the complaints which have come to the department in regard to the new medical inspection service. Mr. Jolliffe will be gone several weeks.

The population of Saskatchewan, as at June 1, 1926, was 820,788, an increase in the five-year period from the quinquennial census of 1921, of 63,228, according to the report issued by the Dominion Bureau of Statistics at Ottawa.

Sores Free Before It... There are many who have been afflicted with sores and have driven them away with Dr. Thomas' Electric Oil. All you have to do is to apply this oil in applying this splendid remedy, as there is nothing like it to be had. It is cheap, but its power is in no way expressed by its low price.

U.S. Tariff Against Canadian Cream

Increase of Fifty Per Cent. May Go into Effect.

"The United States tariff increase of 50 per cent. or perhaps less, against Canadian milk and cream will likely go into effect," said P. C. Armstrong, of Montreal, just back from Washington, where he represented the National Dairy Council of Canada at the United States tariff commission hearing regarding dairy products.

Mr. Armstrong stated that the methods used by the investigators of the commission in making comparative cost studies were not correct as regards Canada, and he was resentful against remarks made by some of the speakers at the hearing in the effect that the standard of living among Canadian farmers was not up to that of the United States farmer.

The Least Excitement Made Her Heart Palpitare and Flutter

Mrs. Ambrose Orser, Elginburg, Ont., writes: "I suffered for some time with a bad heart which seemed to be excited by my nerves. I could not sleep at night, and at times it would cause it to flutter and palpitate, and at times I would have real bad spells. I suffered this way for gone time when, one day, I saw

advertised, as de-

scribed to try them.

I had only taken a few boxes when I noticed that the heart did not flutter so much, and I continued taking them and in a short time my heart felt entirely different."

Our Fashion Book, illustrating the newest and most practical style, will be of interest to every home dresser. Price of the book 10 cents the copy.

Population Of Saskatchewan

Given As 820,788 As At June 1st,

1926
The population of Saskatchewan as at June 1, 1926, was 820,788, an increase in the five-year period from the quinquennial census of 1921 of 63,228, according to the report issued by the Dominion Bureau of Statistics today. In this total, males exceeded females by 72,134. The rural population of the province was more than double the urban, the figures being 578,206 and 242,532 respectively. The urban population were distributed among seven cities, 80 towns and 360 villages.

Nearly 45 per cent. of the population was born within the province itself, while of the 820,788 persons in Saskatchewan, 624,548 were of British origins. Native-born Canadians comprised 525,372; those from the British Isles 98,011, and from other British possessions, 1,060.

Of the foreign-born citizens, numbering 196,190, or nearly 24 per cent, Russia was the largest contributor with 27,227; Austrians were second with 11,594, and Ukrainians third with 10,607. The province had 284 Galicians, 7,308 Germans, 9,210 Norwegians, 7,022 Swedes, 2,006 Danes. There were 3,158 Asiatics, of whom Chinese furnished 2,719 and Japanese 87.

Illiteracy was greatest among the foreign-born, there being 10.28 of the total over 10 years old without letters; and among the born 2.93, and British-born, 2.1.

The Sun Life

More Firmly Established On a Sound Financial Basis Than Ever.

One of the most encouraging signs of the times for Canada is the substantial progress that continues to be made by our great banking and insurance institutions. The Sun Life Assurance Company of Canada has now reached a position in the year past, and its position is today more firmly established upon a sound financial basis than ever before in its history.

When Canadians reflect upon the strength and solidity of their banks and their insurance companies, the desire that these shall always remain Canadian is uppermost. It is indeed in the highest interests of the nation that they should never pass under foreign control. Canada needs capital, but not to be devoted to swelling up our national identity.

ASPIRIN

Headaches may be swiftly and safely relieved by an Aspirin tablet. A most efficient remedy, and there's no after effect; its use avoids much needless suffering. Try it next time; see how soon its soothiing influence is felt. Just as helpful when you have a cold; neuralgia, neuritis, rheumatism, lumbago. Just be certain you get real Aspirin—the genuine has Bayer on the box, and on every tablet. All druggists, with proven directions.

Physicians prescribe Aspirin;
it does NOT affect the heart

Aspirin is the trade mark registered in Canada, U.S.A., and Great Britain. It is well known that Aspirin means Bayer medicine, to assure the public against imitation. The Tablets will be stamped with their "Bayer Cross" trademark.

PAINTED FIRES

BY NELLIE L. MCCLUNG

COPYRIGHT, CANADA, 1925

CHAPTER XX.—(Continued.)

The man that carried over Helm had made her own masterpiece. She caught the back of a chair and managed to say: "Oh! It is all right; Jack left me lots of money; I really do not need it. I just thought I had better take it with me." Helm was holding her lips very tightly so they would not tremble. She even smiled, winking very quickly to keep the tears back. "I expect to meet Jack in the city," she resumed. "He has forgotten to mention to me that he sent for the money—but it is quite all right. I have plenty. Goodbye, Mr. Bannerman. It looks like snow, does it not?"

Helm turned away quickly. The timekeeper called her back. "Say, Helm," he began awkwardly, "don't think I am buttin' in or like of that, but I just wanted to put you wise. That old bird of a magistrate at Bannerman has been shootin' off his mouth. It seems he claims he knows a lot about you. He says—Oh, well, I don't need to repeat what he says—he is drunk most of the time, and nobody should mind a word he says; but he declares you and Jack aren't legally married at all—it was because the river had taunted him so, and mocked him, and dared him, and driven him to it."

Helm reached her own house, and, going in, shut and locked the door. She must think! A basin of water stood on the floor. She buried her head in it, and try to stop the tears that were burning in her eyes. The heart-bust in her throat seemed to choke her.

"You to be a girl and see Beauty in flower and bird, and tree!"

To pass through, strong and pure, and good.

The gate which leads to womanhood."

She rest it all with a heart that grew heavier and heavier. It was not for her at all. She was no longer a girl. She was a woman, with a woman's heartache, old as the world, black as night, and deep as the deepest sea.

And with all the hosts of heaven and all the ministering angels around the throne, there were eyes to pity and no one to weep—ache.

Yes, there was one. A dog whimpered at her door, and instinctively Helm arose to let it in. A very thin and wistful looking saile collie, with a cheep rope hanging from her collar, entered timidly. It was the dog that Arthur Warner had given away and that had been kept tied up by her new owner, in the hope she would forget her old master.

Today she had made her escape and found her way to Helm's door, demanding by her eager looks to know where her master was. Helm tried to explain in broken languages, but in vain. Then she offered her food, which she did, still begging Helm to tell her the truth.

The collie made no response to Helm's attempts to comfort her, and having convinced herself that her master was not in this house, she asked only one thing, her freedom. She would take to the open road again. She would be on her way. Helm

knowing what was in her heart, and the hopelessness of the quest, devoted to keep her, but she knew she was hating her for holding her back from her only chance. At last, with her heart sore for the dog's trouble, as well as her own, she tied a thick piece of bacon to her collar, knowing she would break the string with her paws when she wanted to, then opened the door and let her go. She was a sister to the station, whispering excitedly. From there she ran yipping down the track with her nose to the ties.

Helm watched the poor animal until a bend of the road hid her from sight. Then she turned back into the darkness and sobbing. "Poor dog, poor dog!—just like me, forsaken. Men who go away should shoot all of us who love them!"

Helm hired a horse and buggy the next day and drove down the valley to Bannerman. She went to the station, but there was no one there. There was to be known. She would find out what the magistrate meant. It was a glorious day of blue sky, with a high wind that came howling through the pass in the mountain, roughening the deep pools of the river as it raged over them. Helm loved its cool breath on her hot face. She could not be cast down on such a day. Her Jack had not fooled her—no matter what any one thought. Helm told herself again and again that her great fear was that something had happened to him—he dead, Jack, so white-skinned, clean and gentle.

Anyway, she would be brave. Next day was train day, and he might come. Twice a week the train came down to Eagle Mine from the mine town. Helm had so often watched it coming in, in her heart in her mouth, that she had grown to dread train days, for during the last few months at the first rang the whistle that came weakly piercing the valley a violent noise had seized her. As she now drew near, her destination it came again. She sought the Wyrmouth, and their awful philosophy. In this part of her punishment? Was it all wrong? Had she done wrong? But still, everyone was in the world. Helm had come the same way. Surely God wanted people, and yet, why did he punish women so? She sat still a while, letting the horse ride along the side of the trail.

The magistrate was at home. No, he did not remember her. Helm Mi-lander, a Flin girl, whom he had met at Jack Dent last March? No, he did not remember. He and his friend, Major Gowett, looked at each other. The magistrate was thinking knowingly. "I think you are mistaken, girl," he said sternly.

Helm handed him her certificate. "You gave me this paper," she said.

The magistrate addressed his friend. "There's only one way to settle this, I'll look up the record. If I married her to this young man the record will show. A certificate tells nothing. Anyone can buy a certificate and fill it in."

He led her to a dusty cupboard, whose open door revealed only a row of bottles, brown with gold labels, cleaning easily through the gloom of the room. With difficulty he found his record book and spread it before him on the littered table.

"You said March of this year?"

"March the twenty-first," said Helm, breathing quickly.

The pages were turned slowly. "I married no one on March the twenty-first," he said, looking around at her over his glasses.

"Look at other dates, then," said Helm, trembling; "I may be wrong."

"The two months have passed, and you are still a virgin," said the magistrate slowly. "Look—see for yourself; there is no entry of any marriage."

A sudden fury came over Helm. "You were drunk that day," she cried. "You were red-eyed and staggering! You forgot to write it down. You sent me out. You spoke to my Jack here while I sat outside. You mind I said 'Come outside to marry us.' You were cross and awfully."

Major Gowett interposed. "Hush, girl," he said, "you must remember Col. Blackwood is a magistrate. Your condition makes you hysterical. We're

not going to let you go to jail."

Today she had made her escape and found her way to Helm's door, demanding by her eager looks to know where her master was. Helm tried to explain in broken languages, but in vain. Then she offered her food, which she did, still begging Helm to tell her the truth.

The collie made no response to Helm's attempts to comfort her, and having convinced herself that her master was not in this house, she asked only one thing, her freedom. She would take to the open road again. She would be on her way. Helm

knowing what was in her heart, and the hopelessness of the quest, devoted to retain its full flavor and strength unless packed in airtight containers. Successful tea planters ship their tea in aluminum—the same rust, dust and damp-proof material which keeps Red Rose Tea always so fresh, strong and flavorful.

No high-grade tea can be expected to retain its full flavor and strength unless packed in airtight containers. Successful tea planters ship their tea in aluminum—the same rust, dust and damp-proof material which keeps Red Rose Tea always so fresh, strong and flavorful.

Sorry for you, but you must not speak like this."

Col. Blackwood said not a word. He went again to the cupboard, and after fumbling among the papers there brought back a newspaper slightly yellowed. "I'll show you something, you dog!—just like me, forsaken. Men who go away should shoot all of us who love them!"

(To Be Continued.)

Flin Flon Development

Expectation That Mine Will Be a Steady Producer, By Fall Or

1926

Steady production of copper, zinc and gold at the Flin Flon mine is not expected until fall of 1926, if all plans work out as expected, according to R. E. Phelan, vice-president in charge of operations at Flin Flon Mines, Ltd. By that date he estimates that \$10,000,000 will have been spent on the mining plant and smelter alone.

The capacity of the mill and concentrator will be 3,000 tons daily, and the smelter will be large enough to handle the product of this plant, Mr. Phelan said. This will mean steady employment for 1,000 or 1,200 men. The town which will spring up round the mine will have about 6,000 inhabitants, he estimated.

While the final decision regarding the location of the town site has not been made, Mr. Phelan was able to say definitely that it would be in Manitoba. The mine itself straddles the Saskatchewan-Manitoba boundary. By the end of the winter of 1926, Mr. Phelan said, it was expected the railroad would be put in such shape that cement and structural steel could be run by rail right to the mine, while the remaining 6,000 feet of 1926 he predicted would be a permanent road which would be laid in and all year round railway transportation possible to and from Flin Flon and The Pas. In that year, he said, the heavy plant and machinery would be shipped in, and the final construction and installation of the plant and smelter would be made.

Another Medical Triumph

Toronto Doctor's New Treatment For Pyorrhea May Effect Cure

Announcement is made that, after a long period of study and experimentation, a doctor, working in the research department of Western Hospital, has developed a new treatment for pyorrhea, with a fair prospect of having discovered a cure for that disease. The successful physician is Dr. L. E. Harriman. If the hopes aroused by his discovery prove well founded, his achievement will be hardly less important than the insulin treatment for diabetes developed by Dr. Banting.

Pyorrhea is a very common disease. It is said to affect fully 90 per cent of all human beings at some time in their lives, and that 50 per cent of all teeth that fall out are not through its morbid action. Not only is it a distressing affliction in itself, but it is the cause of many other disorders, for pus discharged from the diseased gums is absorbed into the blood stream and is an active cause of rheumatism in different forms, neuritis, ulcer of the stomach, and gall-bladder disease. Therefore a cure for pyorrhea may also be a cure for a long train of physical afflictions.

The men who bestow such boons upon suffering humanity are among the greatest benefactors of the race.

A Blessing in Disguise

Accident To Canadian Aviators May Focus Attention On Requirements In Hudson Straits

The accident which befell the Canadian aviators, Lewis and Terry of the Hudson Straits air patrol, was a blessing in disguise if it served to focus public attention on the work of the Canadian Government in the Arctic and the efforts being made to open a new outlet to Europe. In the opinion of Captain J. E. Berliner, veteran government Arctic navigator.

The experience of the airmen illustrates the necessity of a radio direction finder on the Button Islands and the reliability of the Eskimo for guidance, Captain Berliner said.

Two American towns are named after Rudyard Kipling.

Minard's Liniment—Invaluable in the Blister.

Russia's "Man Of Steel"

Man Who Captured Leadership Has Become All-Important

Joseph Stalin, the Russian "Man of Steel," who is holding that troubled empire in his hands today was born in the year 1878, and his real name is said to be Dzhugashvili or Dzhozhashvili. Probably he changed it because he preferred one easier to pronounce.

He comes from fighting stock, says an article in the London Daily Mail by Dr. Edward Lister, the English character of Russian affairs, who has known Stalin since his boyhood days.

Today he is all-powerful, not only because the Army and the Cheka are at his command, but because at the first sign of anti-Stalinism he puts into motion the party machine, which declares every opponent of Stalin an enemy of the party and of the Soviet State. As for his personal safety of late he has imported a whole regiment composed chiefly of Caucasian brigands. And it may be added that the Cheka is not slow to inflict the death for the safety of a descendant of one of their comrades who has managed to conquer Russia.

U.S. Investment Abroad

World's Debt To United States Reaches Huge Total

The world's debt to United States investors, approximately \$25,600,000,000, is more than \$5,000,000 greater than was owed to Great Britain, while British foreign investments were at their peak, Dr. Max Winkler said in a report prepared for the Foreign Policy Association.

While the British held political obligations held by the United States Government, American investment in foreign securities in the first of the year aggregated about \$14,500,000,000. American holdings in Europe, approximately \$3,270,000,000, exceeded those in any part of the world. Canadian holdings by Americans are about \$3,922,000,000; South American, \$246,500,000; Central American, \$2,924,600,000; Far Eastern, \$274,500,000, and miscellaneous, \$3,400,000.

J. Wilson was a visitor to Pincher Creek on Tuesday.

Social evening in the Moose hall on Monday next, March 19.

Mr. Alex Cameron has returned after spending three months in Toronto.

J. A. Smith, B.A., provincial high school inspector, of Calgary, is here on an official visit.

Remember the pantry and apron sale in the Moose hall on Monday, March 19.

Mrs. J. E. Leisler, of Didsbury, Alta., is paying a visit to Mr. and Mrs. H. W. Clark for a week.

St. Patrick's Day is to be celebrated on Saturday by a dance in the K. of P. hall.

Dick Shone continues to make steady improvement and visitors are now permitted to see him at the hospital.

Mr. R. Young came up from Lethbridge yesterday to visit at his home here, returning this morning.

Miss M. Chardon's pupils gave an excellent musical recital at her residence at Blairmore on Monday, March 12th. Among those present from Coleman and taking part were Miss Freda Antrobus and Miss Violet Currie.

The town of Courtenay has inaugurated a clean-up and paint-up campaign. In order to encourage business houses to paint this spring the city council is putting up ten per cent of the cost of paint and hardware merchants handling paint are making a similar offer. At least thirty-five business houses will take advantage of the offer. —Cranbrook Courier.

Miss Florence Cox, graduate of the Jean Carroll School of Beauty Culture, Calgary, will do marcelling, etc., in the evenings and on Saturdays by appointment at Mrs. W. G. Fraser's. Phone 2954.

Here and There

(53) Forty-five years of faithful service to the Canadian Pacific Railway were honored recently when George A. Fowler, former lumber agent of the company, was presented by George Stephen, freight traffic manager, with a purse of gold, contributed by Mr. Fowler's colleagues in the railway freight traffic offices east of Chicago in the United States and east of Fort William in Canada.

Fergus.—A special train of 35 cars left for Vancouver and points south. The other day with over 11,000 packages of washing machines and barn equipment. This trainload, the largest of its kind ever to originate in Canada, is from a Fergus firm which has been with the Canadian Pacific Railway as a special train, stopping at Fort William, Sudbury, North Bay, Peterborough, Edmonton and other centres. Nearly all the consignments were for rural communities.

Immigrants are beginning to pour through the port of Saint John and Montreal en route to Ontario and the West. The Canadian Pacific and Canadian National lines, Montcalm and Montaup recently, in the neighborhood of 600 settlers of the better class have been distributed. Among these were British farm laborers going to selected farms under the scheme of the Canadian Colonization Association and many more will be coming in during the next few months.

Toronto.—In accordance with his promise to Western Ontario tobacco growers, Hon. W. R. Motherwell has appointed a committee to investigate all phases of the tobacco-growing industry, for which two of the commissioners have already been named. The committee will go to every phase of the industry, from seeding to marketing, and one of the most important features will be the study of the best methods of operating a proposed co-operative marketing pool.

The committee will go to every phase of the industry, from seeding to marketing, and one of the most important features will be the study of the best methods of operating a proposed co-operative marketing pool.

FLOWERS
FOR ALL OCCASIONS

Can be quickly obtained by ordering from Mrs. Graham at 102 Main Street. Bouquets, Cut Flowers and Wreaths, and any design required made to order.

MRS. M. E. GRAHAM
Post Office, Coleman

A children's matinee will be held at the Palace theatre on Saturday afternoon at 2 o'clock.

Mrs. Pattison returned on Sunday from a two weeks visit to Edmonton.

The prize winners at the Rebekah whist drive last Saturday were Mrs. Dickson, Mrs. McLean Hunter; floating prizes, Mrs. T. Flynn and Mr. Peet; consolation, Mrs. R. Morris, Mr. Emerson.

W. A. Will Hold Tea and Sale

The ladies of St. Alban's will hold a pastry sale, sale of work and a tea in the parish hall on Saturday afternoon at 3 p.m. and invite the ladies of Coleman to attend. They have prepared some very nice articles for ladies and children. Drop in during the afternoon.

CLASSIFIED ADVTs.

Advertisements under this heading, as for Sale, To Rent, Lost, Found etc., should be sent in sets of four, counting five words to the line, with a minimum charge of 35¢.

For a small cash outlay you can advertise in the classified columns. The Journal will hold a special rate for sales houses to rent etc. You reach a larger number of people than by any other method.

PIANO FOR SALE—Gerhard Heintzman. Apply to William Fraser, Fifth street. —29-2 p.

FOR SALE—A baby Buggy. Phone 268A, Coleman. —29-2 c.

MacLean's Magazine
Twice a month—24 issues a year.
\$2.00 for 1 year
\$5.00 for 3 years

In 1927-8 the editorial plans for MacLean's includes the printing of five best-selling novels, four novels, 100 short stories, 215 articles or articles of Canadian National interest.

In short, approximately, 355 main features.

Approximately 308, that is to say, 92 per cent of the editorial content of MacLean's, it is estimated will be contributed by Canadians.

It is a big buy for only \$2.00 for one year.

If You Have EYE STRAIN

you probably realize that everything is not as it should be. You may not know what is wrong, but this something is you are sure.

Many people continue to suffer for years in that way, and never learn that their eyes are the cause of the trouble.

Our service will correct your eye strain.
